Gender equality policies in Spanish universities (2017-2020)

Project goals:

- Address the challenges of policy design and implementation to promote gender equality and provide resources for implementers
- Understand why women remain under-represented and the gender perspective absent from university research and teaching despite legislation at the European, national and regional level
- Identify the obstacles preventing policies being implemented effectively, as well as facilitating factors that help bring about change

5 universities, in 4 distinct regions

- Universidad Complutense de Madrid
- Universidad Pompeu Fabra
- Universidad de Santiago de Compostela
- Universidad del País Vasco
- Universidad Nebrija
